Studies: Data and Communication at Aarhus Tech, Viby J

### Work Experience

Project: **SmartWork**

Role: **Full-Stack Developer**

Developed and deployed SmartWork, a web-based platform designed to optimize employee management for companies. The system supports two user roles—managers and employees—providing distinct features for each:

- Employees: Enabled GPS-based check-in/out with Google Maps API integration for real-time attendance tracking. Built a product ordering system and an internal chat feature for communication between employees and managers.
- For Managers: Implemented tools for managers to add employees, assign tasks, monitor task progress, and review detailed attendance records. Included approval workflows for employee requests, such as product orders.

Tech Stack: **Django** (backend), **React.js** (frontend), **PostgreSQL**, **Google Maps API**.

### CERTIFICATIONS – LinkedIn

- **Coursera Certifies Technical Support Fundamentals (Jun/2022)**  
Through it I learned basic knowledge and computer techniques, about IP addresses, networks and some tools used when working with computers.
- **Coursera Certifies Crash Course on Python (Sep/2022)**  
Through it I have learned the most basic knowledge of the Python language such as arrays, lists, basic syntax and so on to be able to learn more about it.

### Educational History

- Aarhus tech, Hasselager (Data and Communication) 2023 - 2028
- FGU Sydøstjylland, Stilling 2019 - 2021
- Aarhus Tech, Hasselager (Elektronikfagtekniker) 2018 - 2019
- UNGDOMSSKOLE UCS10, SKANDERBORG 2017 - 2018
- Ungdomsskole, Skanderborg 2016 - 2017
- Niels Ebbesen School, Skanderborg 2015 - 2016

### Relevant Skills

- HTML, CSS, JavaScript.
- React.js and React Native Framework
- Python.
- Flask Framework, Django Framework.
- Ability to learn quickly and adapt to new technologies.

### Projects I have worked on

- AI chatbot (Python, Flask framework, HTML, CSS, JavaScript)
- Platform for employer and management (Python, Django framework and JavaScript. React.js)

My Github: <https://github.com/MinhLuanLu>

### Driver's license

- I have had a driver's license since 2019

### Interests

- Fitness (workout in the gym)
- Play instruments (Piano, Guitar, Ukulele)
